Structure of Education System of Grenada, 2012/13

Introduction

In this Edition of the Education Statistical Digest the information was updated from the Academic year 2008/09 to 2012/13. During this period it is significant to note that Grenada achieved two major milestones; namely, Universal Secondary Education (2012) and the successfully piloting and subsequently implemented of Caribbean Primary Exit Examination (CPEA) in 2012, thus replacing the traditional Common Entrance Examination. Also, there were two Secondary schools established, the Grenada Christian Academy in Pearls, St. Andrew's and the conversion of J.W. Fletcher Memorial Primary School into J.W. Fletcher Catholic Secondary School in Archibald Avenue, St. George's.

Projections are calculated up to 2015/16 so as to correspond with Education Sector Plan as envisage in the document of the Strategic Plan for Educational Enhancement and Development (SPEED). All the projections were done in the last Edition of the digest in 2008/09.

The Education Statistical Digest 2014 consists of ten (10) sections, including: Early Childhood, Primary, Special Education, Secondary, Skills Training, Tertiary Education, Private Schools, Demand for and Supply of Resources, Library Services and Population Data. It also contains: Projections on enrolment, Staffing, Educational Expenditure and Population, as well as, their current positions. Hereunder is a brief summary of the contents of the Statistical Digest.

In 2012/13, there were one hundred and five (107) Pre-school Centers on the island, seven (7) more than 2008/09. Of these, sixty six (66) were Government owned whilst forty-one (41) were privately owned. The 2012/13 total enrolment for the public pre-schools was two thousand, six hundred and forty nine (2649) with a Gender Parity Index (GPI) of 1 which means that the ratio of boys to girls is 1:1.

The Parishes of St. George and St. Andrew have the same number of Public Pre-school Centers, 17 each and account for 52% of all Public Pre-school Centers.

There has been a gradual decrease in the total enrolment of pre-schoolers during the period 1997/98(3437) to 2002/03(2115). There has been a slight increase from 2003/04(2352) to 2008/09(2423) but it is still less than that of 1997/98. From 2008/09(2423) to 2012/13(2649), there has been a slight, but steady increase in enrolment at an annual average rate of 57 pupil per year.

There were a total of one hundred and sixty – three (163) pre-school teachers all of whom were females in 2008/09 (16 more than 2003/04), and 189 in 2012/13 (26 more than 2008/09). The pupil/teacher ratio is 14:1 as compare to 15:1 in 2008/09 and 19:1 in 2003/04.

Primary schools' enrolment has been on the decline from 1995/96, with an average annual decrease rate of 3.56%. The total enrolment in 1995/96 was 22, 283 then fell to 19,134 in 2000/01 and continue to decline to 11, 950 in 2008/09. In other words, the enrolment in Primary Schools had significantly decreased by 46.4% from 1995/96 to 2008/09 and by 37.5% from 2000/01 to present at a declination rate of 4.2%.

It must be noted that the decrease in the enrolment in Primary Schools is a deliberate policy of the Government, as it endeavours to achieve Universal Secondary Education. The most notable of policies is that of the “thirteen (13) year olds”.

Grenada was able to finally achieve Universal Secondary Education in September of 2012.

The Enrolment in Public Primary Schools has continued to decrease steadily from 2008/09 to 2012/13 at an annual average declination of 137 students per year. Girls account for 52% of the total enrolment in 2012/13.

Dropout rate at that level was 0.02% with male dropout rate higher (0.03%) than females (0.01%). Repetition rate was 0.7% with male repetition rate at 0.6 and female 0.1%. There were seven hundred and fifty - six 756 teachers at the primary level (*712 in 2008/09*) and (*765 in 2000/01*) of which 78% are females, (*79% in 2008/09*) and (*76% in 2000/01*). Female teachers have dominated the primary schools over the past fifteen (15) or more years. Seventy percent 58% of the primary teachers were trained (*72% in 2008/09*). Of these trained teachers 81% are females (*78% in 2008/09*). The pupil/teacher ratio has decreased from 25:1 in 2000/01 to 17:1 in 2008/09 and 15:1 in 2012/13.

The percentage of the number of students who gained places at the secondary level via the (Common Entrance Examination) has increased from 50% in 2001 to 70% in 2009 and 98% in 2013 with the highest percentage of 100% in 2012, the year of Universal Secondary Education. The number of students who were assigned places after having succeeded the School Leaving Examinations has decreased significantly for the same period.

There were three (3) Special Education Centers on the island, with a total enrolment of one hundred and nineteen (119) of which 41% were females. The students can be classified into three (3) main areas of disabilities namely; hearing impairments, visual impairment and mentally challenged. There were twenty-one (21) teachers of which eleven (11) are trained and a student/teacher ratio of 6:1. The centers also serve a number of Mainstreamed Students.

Secondary enrolment in 2012/13 was nine thousand eight hundred and fifty one (9851) of which 48.5% were girls. Secondary enrolment has been more or less constant from 2000/01 to present. In 2012/13, 89% of the country's 12-16 year olds were enrolled in secondary schools. Dropout rate was 0.09 %. Repetition rate was 4.6%, 6.4% in 2008/09 and 1.3% in 2000/01 with male repetition higher than female. In 2012/13, there were 719 teachers, (664 teachers in 2008/09), of which 63% were females. Thirty nine percent (99%) of these teachers are trained (*42% in 2008/09 and 31% in 2000/01*) and 34% hold at least a Bachelor's Degree (Graduates) which shows a notable more than 100% increase from 2008/09, it was 16% in 2008/09). About 17% of all the teachers were trained graduates, almost three times the amount in 2008/09 which was 6%. The student/teacher ratio is 14:1 (*15:1 in 2008/09 and 23:1 in 2000/01*).

There was one skill training center on the island, NEWLO which is governed by a Non Governmental Organisation. The enrolment at this center was one hundred and ninety-six (196) of which 36% were females. In 2000/01 there were three (3) skills training centers but St. Andrew's Skills Training Center was destroyed by Hurricane Ivan and St. Patrick's Multi-purpose Center is now part of T.A Marryshow Community College.

There are three (3) Tertiary Institutions on the island, namely: the St. George's University (SGU), University of the West Indies (UWI) Open Campus and T.A Marryshow Community College (T.A.M.C.C). In 2012/13 there were six thousand, six hundred and eighty-two students (6682) enrolled at SGU in the different programmes 3255 males and 3427 females, *(5046 in 2008/09, 2388 male and 2658 female)*. In 2008/09, 326 students enrolled at UWI Open Campus and a total of 1949 students were enrolled at T.A.M.C.C in the various Divisions *(2,496 in 2008/09 and 1,857 in 2000/01)*, 64% of which were females. There were 157 teachers and a student/teacher ratio of 16:1.

The Caribbean Advance Proficiency Examination was introduced in 2007 at the College thus replacing the traditional GCE 'A' Level Examinations.

There were nineteen (19) Private Primary Schools and three (3) Private Secondary Schools. The total number of primary students enrolled at these schools was one thousand five hundred and forty-four (1544), of which 48% were females. The student/teacher ratio is 12. The enrolment for Private Secondary Schools were 215, of which 50% were females. The student/teacher ratio was 8.

Technical Notes on Concepts and Methods

1. Reference Point/Period

- Population : Population data are given for the middle of the calendar year.
- Enrolment : Student data are given for the last school day of October of a given academic year.
- Teachers : Teacher data are given for the last school day of October of a given academic year.
- Expenditure: Financial data are given for the financial year from December to November of the following year.
- Gross Domestic Product (GDP): GDP data are given for the calendar year.

2. School Capacity

- Physical capacity of a school is estimated at 35 pupil/students per classroom and 15 square feet per child in case of hall spaces.
- If enrolment of a school is more than its capacity then it is a case of over utilization of physical capacity.
- If enrolment of a school is less than its capacity then it is a case of under-utilization of physical capacity.

3. School Size

- The size of a school is measured in terms of number of pupils/students enrolled on the last school day of October of a given year.
- Average size of a school is computed by dividing total enrolment by number of schools in a given area.

4. Teacher Utilization

- Pupil/Teacher ratio is the number of children per teacher in a Pre-school centre.
- Pupil/Teacher ratio is the number of pupils per teacher in a Primary school.
- Student/Teacher ratio is the number of students per teacher in a Secondary school.
- The above ratios are calculated by dividing total enrolment by the total number of teachers in the school/centre.
- The Principal of a school is not included in the number of its teaching staff.

5. Trained Teachers

- A trained teacher is one who has successfully completed a recognised course in teacher education methods and teaching techniques.
- Teacher Leavers are teachers who leave the education system because of retirement, resignation, termination and secondment.

6. Graduate Teachers

- A graduate teacher is a teacher with at least a recognised bachelor's degree.

7. Gross Enrolment Rate (GER)

- The GER gives information on the extent of participation of a specific school-going age group population in a specific level of education.
- GER at primary level is calculated by relating population in age group 5 – 11 to the enrolment in primary schools.
- GER at secondary level is calculated by relating population in age group 12 – 16 to the enrolment in secondary schools.

8. Net Enrolment Rate (NER)

- The NER gives information on the extent of participation in a given level of education of children belonging to the official age-group corresponding to the given level of education.
- NER at primary level has been calculated by grade (from K to grade 9), by relating the population in ages 5 to 11 to the enrolment 5 – 11 in those grades.
- NER at secondary level has been calculated by form (1 to 5), by relating the population in ages 12 to 16 to the enrolment 12 – 16 in those forms.

9. Participation Rate

Female Participation Rate

- The percentage share of females in the total enrolment is computed to determine gender participation at a given level of education.

Male Participation Rate

- The percentage share of males in the total enrolment is computed to determine gender participation at a given level of education.

10. Transition Rate

- Transition Rate is calculated by relating the number of graduates who join the next level of education in a given year to those who graduated from the lower level in the previous year.
- Transition from primary to secondary level is calculated by relating the number of students who wrote the Common Entrance Examination (CEE) /Caribbean

Primary Exit Assessment (CPEA) in a given academic year to the intake in Form 1 in the secondary schools during the next academic year.

11. Flow Rate

- Flow Rate is calculated by following a cohort of students who join a given class in a given year and move to the next class in the subsequent year.
- When using flow model technique for projection of enrolment, flow rates are used for carrying forward students from one class in a given year to the next class in the subsequent year.

12. Dropout Rate

- The Dropout Rate is calculated by relating the number of students who dropped out during a given year to the enrolment in the beginning of the year.

13. Repetition Rate

- **Repetition Rate** is the number of students repeating from a particular year divided by the total enrolment in that year.

14. Percentage of Repeaters

- Percentage of Repeaters is calculated by dividing the number of students repeating in a current year by the total enrolment of that year, expressed as a percentage.

15. Expenditure per Pupil/Student

- Expenditure per pupil/student is calculated by dividing total recurrent expenditure allocations to a given level of education by the enrolment at that level.

16. Infant, Junior Primary, Senior Primary

- Please refer to the flow diagram of the Structure of the Education System on the next page.
- The term Senior Primary is synonymous to all-aged Primary schools

17. Infant, Primary and Combined Schools

School	Grades	Ages
Infant	K - 3	5 - 8
Primary	4 - 6	9 - 11

FORWARD

The Statistical Digest is a production of the Planning and Development Unit, Ministry of Education and Human Resource Development.

This Edition seeks to improve the educational statistics from the previous edition that was published in January, 2010. In this edition the tables have been up-dated with statistics as recent as the Academic year ending 2012/13. It contains information on Students, Teachers and Educational Institutions. It also contains statistics on Library services, Demand for and supplies of resources, School age population and Population projections. This Publication is arranged according to the tier of the school system. These include Pre-School, Primary, Secondary and Tertiary levels. Also, included are statistics on Special Education and Skills Training Centers.

As far as possible the data is presented on a parish basis - Carriacou and Petit Martinique being considered as one parish.

Details are given inter-alia on the following:

- Pupil/Student Enrolment
- Student Leavers, Dropouts/Repetition Rates
- Examinations – Common Entrance, Minimum Competency Test, School Leaving, CXC, GCE A’levels, Cape Unit I and II and Teacher Education
- Teachers’ Qualifications, Teacher/Student Ratio
- Budgetary Allocations and National Population trends.

The Digest is intended to be used as the official statistical reference of the Ministry of Education and Human Resource Development.

There will be an electronic version posted on the Ministry of Education and Human Resource Development website: **www.grenadaedu.com**.

Suggestions and criticisms are welcomed and should be addressed to:

Notes : - Figures for 2008/09 are actuals
 - Kindergarden enrolment has been projected by assuming the number of live births from 2003 to 2009.

Source: Registrar General of Births and Deaths

-Enrolment projections from Grade 1 to Grade 6 have been prepared with the help of the Flow Model Technique and taking into consideration the average drop out and repetition rates by grade.

Note: Table 70 shows the transition rate from those sitting CEE exams has increased from 50% to 70% during the years 2000/01 to 2008/09. Because of Government policy to achieve 98% transition rate by 2015/16, transition rates for 2009/10 to 2015/16 have been linearly interpolated.

Flow model technique has been used to project enrolment figures for the remaining years as shown in the Table and a constant flow rate of 98% has been used for all forms. An addition of less than 20 students have been added to form 2 to represent those students who gain entrance via the school leaving examinations.

Number of students sitting CEE exams represents the projected Grade 6 enrolment from Table 42 plus 10 % of students in the senior grades, i.e. those with a second chance to gain entrance into a secondary school. Students repeating grade 6 is assumed to be 650 for each year of the projections.
