GROSS DOMESTIC PRODUCT 2018 QUARTER 3

Note: This is the first time that quarterly estimates of Gross Domestic Product (GDP) have been published in Grenada. This series has been developed by the Central Statistics Office (CSO) to provide more timely estimates of the broad trends in economic activity. The series is entirely consistent with the annual

estimates of GDP, which still provide the most comprehensive and detailed assessment of economic activity. The quarterly series is undergoing development and for the time being, should be considered experimental. The CSO would welcome feedback on the utility of this new series.

Summary

In the third quarter (Q3) of 2018, Gross Domestic Product in constant 2006 prices in Grenada increased by 4.5 percent compared with the same quarter in the previous year 2017. This compares with an increase of 3.8 percent in Q2 2018 and 6.5 percent in Q1 2018 compared, with the corresponding quarters of 2017.

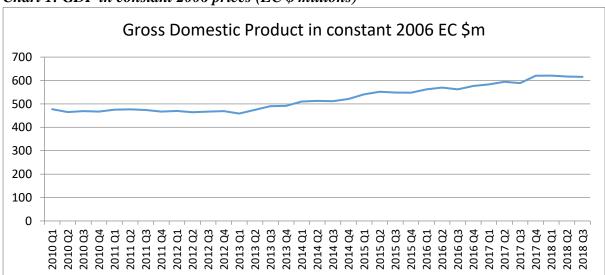

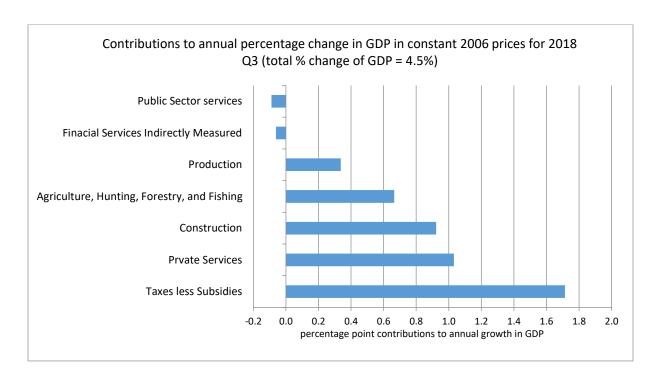

Chart 1: GDP in constant 2006 prices (EC \$ millions)

The increase of 4.5 percent this quarter was mainly the result of a 1.9 percent increase in Private Sector Services output (accounting for 1.0 percentage points), Construction increased by 12.0 percentage contributing 0.9 percentage points towards the total growth, Agriculture and Fishing Sector which grew by 13.2 percent (accounting a further 0.7 percentage points of the total growth). Also from Production Activities 5.1 percent (accounting for a further 0.3 percentage points of the total growth). See, Chart 2.

During the Q3 of 2018 the following sectors contributed to economic activities in Constant Prices: Private Sectors Services 54.2 percent, Construction 8.3 percent, Production Activities 6.6 percent and Agriculture 5.4 percent.

Chart 2: Contributions to the annual percentage change in GDP (percentage points)

The Gross Domestic Product in Constant Prices for the period January to September 2018 compared with the corresponding period 2017 grew by 4.9 percent, (compared to 4.3% for the same period 2017). The increase recorded for January to September 2018 is as a direct result of Private Services Activities 3.3 percent accounting for 1.8 percentage points, followed by Construction Activities growing by 18.1 percent and from Production Activities 6.7 percent, further contributing 1.3 and 0.4 percentage points respectively, towards the overall growth of 4.9 percent.

The Agricultural sector which has been experiencing negative growth from Q1 2016 to Q2 2018, has recorded growth of 13.2 percentage in Q3 of 2018. However January to September recorded an increase of 1.2 percent as a result of Livestock, Forestry and Fishing. While, Agricultural Crops remained relatively constant (declined by 0.03 percent).

On the other hand Construction Activities from Q2 2016 has been on a growth path peeking in Q3 (30.0%) and Q4 (42.6%) 2017 and remained very robust up to Q3 2018 however, Construction Activities began slowing down in Q2 of 2018, recording 9.8 percent and 12.0 percent increase in Q2 and Q3 of 2018, respectively . January to September 2018 Construction Activities increased by 18.9 percent compared to the same period 2017 which recorded growth of 27.7 percent.

Notes

The series presented in this statistical release have been developed based on a range of short term (monthly and quarterly) indicators of economic activity. These sources in some cases still needs further development work. The series should therefore be considered as 'experimental', and will be further developed in the coming period to improve the quality and consistency with the annual estimates.
