FOREWORD

The Statistical Digest is a production of the Planning and Development Unit, Ministry of Education, Youth, Sports and Culture.

This is the First Edition of the Education Statistical Digest of 2022.

This edition for 2022 is current as of October 2021, with updated statistics for the academic year 2021/22. It contains information on students, teachers and educational institutions. It also contains statistics on Library Services, demand for and supply of resources, school age population and population projections.

This Publication is arranged according to the tiers of the school system. These include Pre-Primary, Primary and Secondary schools as well as the Tertiary institutions. Also included are statistics on Special Education schools and Skills-Training Centres.

As far as is possible the data is presented on a Parish basis; Carriacou and Petit Martinique being considered as one parish.

Details are given inter-alia on the following:

- ✦ Pupil/Student Enrolment
- ✦ Student Leavers, Dropouts/Repetition Rates
- ✦ Examinations – Caribbean Primary Exit Assessment (which replaced the Common Entrance), Minimum Competency Tests, School Leaving Examination, CSEC, CAPE, Cape Unit I and II and Teacher Education.
- ✦ Teachers' Qualifications, Student/Teacher Ratio
- ✦ Budgetary Allocations and National Population Trends.

The Digest is intended to be used as the official statistical reference of the Ministry of Education, Youth, Sports and Culture.

There will be an electronic version posted on the official website of the Government of Grenada at <https://gov.gd/sites/default/files/2021-education-statistical-digest.pdf>.

Technical Notes on Concepts and Methods

1. Reference Point/Period

- Population: Population data are given for the middle of the calendar year.
- Enrolment: Student data are given for the fifteenth day of October of a given academic year.
- Teachers: Teacher data are given for the fifteenth day of October of a given academic year.
- Expenditure: Financial data are given for the financial year from December to November of the following year.
- Gross Domestic Product (GDP): GDP data are given for the calendar year.

2. School Capacity

- Physical capacity of a school is estimated at 35 pupil/students per classroom and 15 square feet per child in case of hall spaces.
- If enrolment of a school is more than its capacity then it is a case of over utilization of physical capacity.
- If enrolment of a school is less than its capacity then it is a case of under- utilization of physical capacity.

3. School Size

- The size of a school is measured in terms of number of pupils/students enrolled on the 15th of October of a given year.
- Average size of a school is computed by dividing total enrolment by number of schools in a given area.

4. Teacher Utilization

- Pupil/Teacher ratio is the number of children per teacher in a Pre-school centre.
- Pupil/Teacher ratio is the number of pupils per teacher in a Primary school.
- Student/Teacher ratio is the number of students per teacher in a Secondary school.
- The above ratios are calculated by dividing total enrolment by the total number of teachers in the school/centre.
- The Principal of a school is not included in the number of its teaching staff.

5. Trained Teachers

- A trained teacher is one who has successfully completed a recognized course in teacher education methods and teaching techniques.

6. Graduate Teachers

- A graduate teacher is a teacher with at least a recognized bachelor's degree.

7. Gross Enrolment Rate (GER)

- The GER gives information on the extent of participation of a specific school-going age group population in a specific level of education.
- GER at primary level is calculated by relating population in age group 5 – 11 to the enrolment in primary schools.
- GER at secondary level is calculated by relating population in age group 12 – 16 to the enrolment in secondary schools.

8. Net Enrolment Rate (NER)

- The NER gives information on the extent of participation in a given level of education of children belonging to the official age-group corresponding to the given level of education.
- NER at primary level has been calculated by grade (from K to grade 9), by relating the population in ages 5 to 11 to the enrolment 5 – 11 in those grades.

- NER at secondary level has been calculated by form (1 to 5), by relating the population in ages 12 to 16 to the enrolment 12 – 16 in those forms.

9. Participation Rate

Female Participation Rate

- The percentage share of females in the total enrolment is computed to determine gender participation at a given level of education.

Male Participation Rate

- The percentage share of males in the total enrolment is computed to determine gender participation at a given level of education.

10. Transition Rate

- Transition Rate is calculated by relating the number of graduates who join the next level of education in a given year to those who graduated from the lower level in the previous year.
- Transition from primary to secondary level is calculated by relating the number of students who sat the CEE in a given academic year to the intake in Form 1 in the secondary schools during the next academic year.

11. Flow Rate

- Flow Rate is calculated by following a cohort of students who join a given class in a given year and move to the next class in the subsequent year.
- When using flow model technique for projection of enrolment, flow rates are used for carrying forward students from one class in a given year to the next class in the subsequent year.

12. Dropout Rate

- The Dropout Rate is calculated by relating the number of students who dropped out during a given year to the enrolment in the beginning of the year.

13. Repetition Rate

- **Repetition Rate** is the number of students repeating from a particular year divided by the total enrolment in that year.

14. Percentage of Repeaters

- Percentage of Repeaters is calculated by dividing the number of students repeating in a current year by the total enrolment of that year, expressed as a percentage.

15. Expenditure per Pupil/Student

- Expenditure per pupil/student is calculated by dividing total recurrent expenditure allocations to a given level of education by the enrolment at that level.

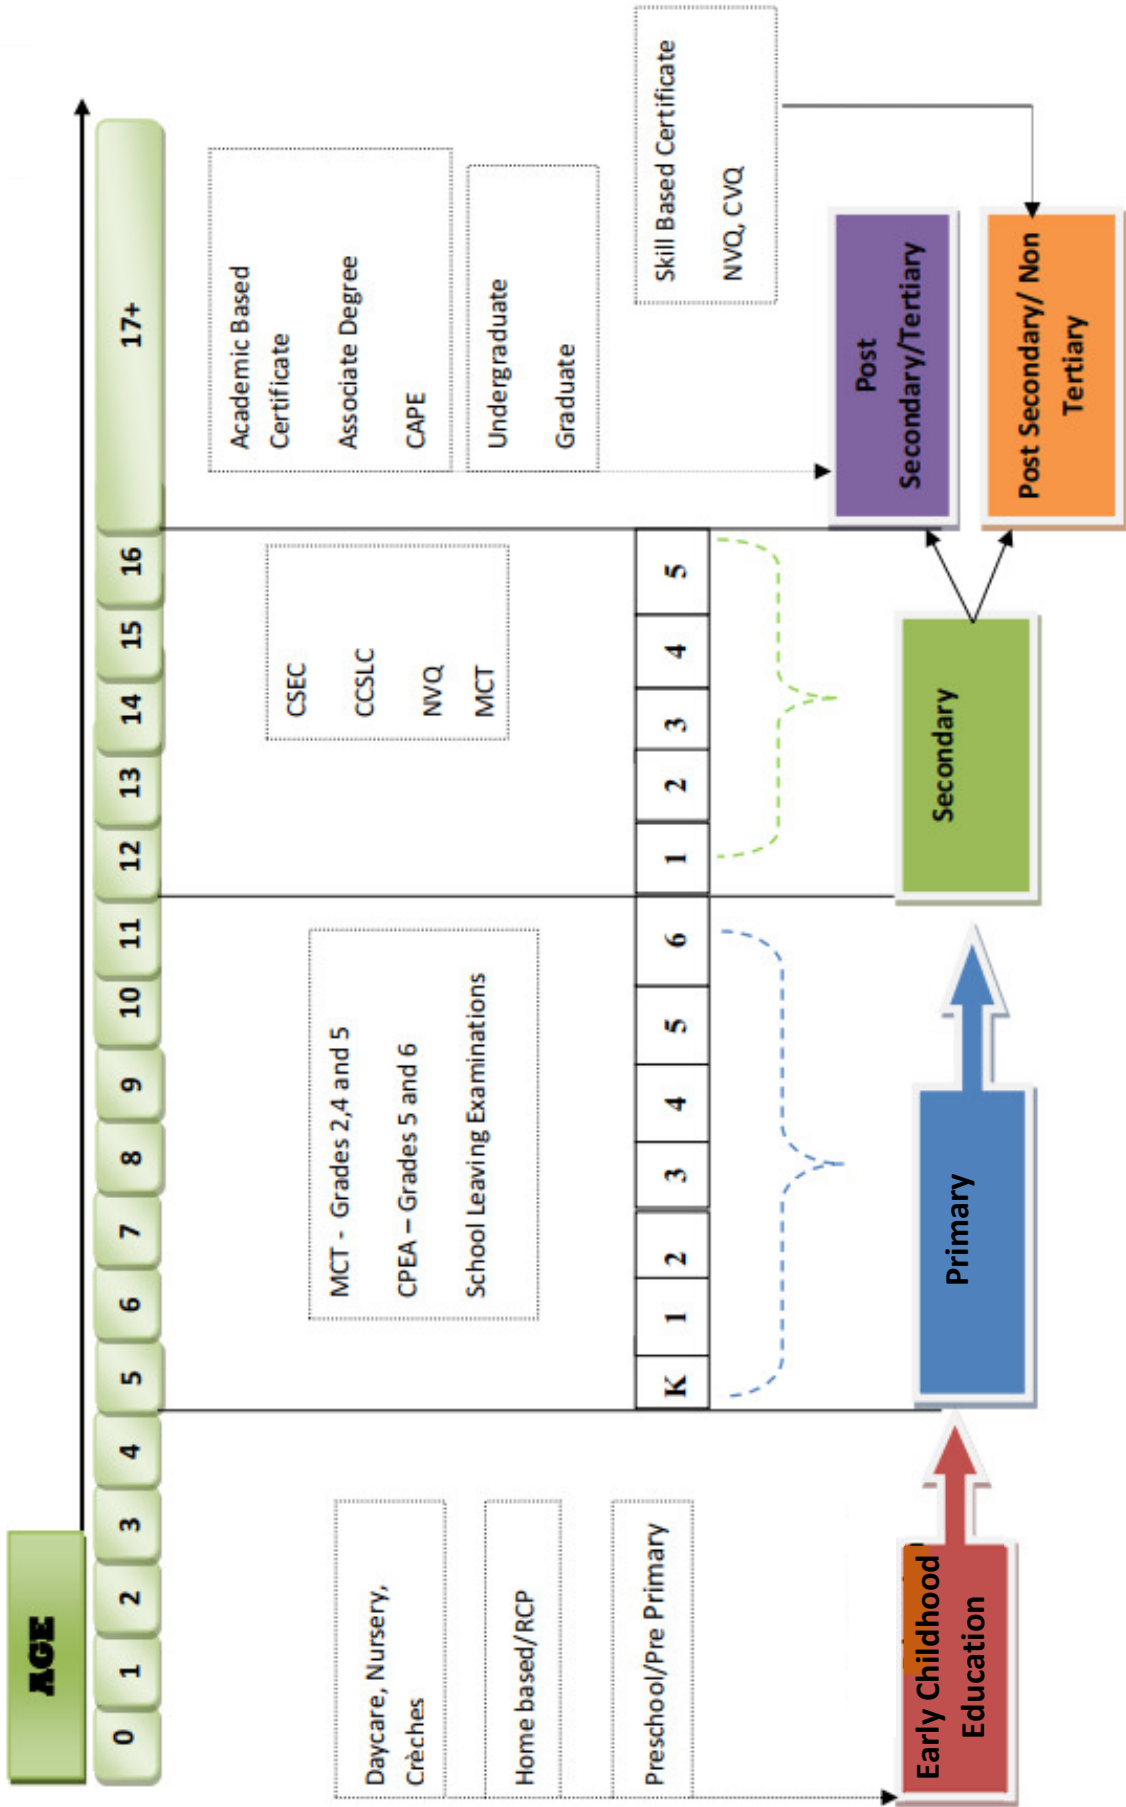

16. Infant and Junior Primary

- Please refer to the flow diagram of the Structure of the Education System on the next page.

17. Infant, Primary

Infant	K - 3	5 - 8
Primary	4 - 6	9 - 11

STRUCTURE OF EDUCATION IN GRENADA

Statistical Digest, 2022

SECTION ONE

PUBLIC PRE-SCHOOL CENTRES

Public Early Childhood Education Section

At the beginning of the period assessed, there were sixty-four (63) early childhood education schools which cater for the students aged three to five years with an enrollment of 2269 students and one hundred and ninety-five (195) teachers.

All the teachers at this level are females. The data presented in this section include the distribution of students by gender, age, teacher, school, type of school organization, and parish and the distribution of teachers by parish.

Important Notice: The names of some of the schools have been changed by relevant Organisation(s). Please note the changes as follows:

Statistical Digest, 2022

SECTION TWO

PUBLIC PRIMARY SCHOOLS

Primary Education Section

Presently, public primary education is provided by 56 schools with enrollment figures of 10708 in 2021/2022. A total of 696 teachers are represented. In 2021, a total of 34.1 million EC dollars (the highest by school tier) was spent on primary education the same as for the previous year.

In this section, the data provides information regarding school quality: student enrolment, student performance, repeaters by institution, dropouts, school capacity, school support, the number of teachers in each institution and their qualifications as well as the expenditure for this sector. Each category is subdivided by district, institution, gender and age where necessary.

Important Notice: The names of some of the schools have been changed by relevant Organisation(s). Please note the changes as follows:

SECTION THREE

PUBLIC SPECIAL EDUCATION CENTRES

Special Education Section

There are three schools that provide to the special education needs of the children in Grenada. A total of 158 students were enrolled in these schools as of 2022. The data captured students in the categories of three disabilities: multiple handicaps, mentally challenged and physically challenged. Later on, these students are expected to be integrated into the secondary education programmes.

Statistical Digest, 2022

SECTION FOUR

PUBLIC SECONDARY SCHOOLS

Secondary Education Section

There are 21 Public secondary schools in Grenada, with a 2021/2022 enrollment figure of 8578. Government spent a total of 25.8 million EC dollars on this education tier - an increase of 0.9 million over the previous year. The data presented in this section includes, but is not limited to, the number of educational institutions, student enrollment, attendance, repetition and drop-out rates, teacher data and examination results. The data provides further details on sub-variables such as age-group, gender, form, and parish. This data can provide an interpretation on the quality of schooling at this level of education. There appears to be a better balance in the gender of the teachers at this level although the female teachers continue to be in the majority. Close to half of the teachers remains untrained in the system every year. The performances of the students at external examinations, particularly in mathematics and English language remain a cause for concern for the education sector.

SECTION SIX

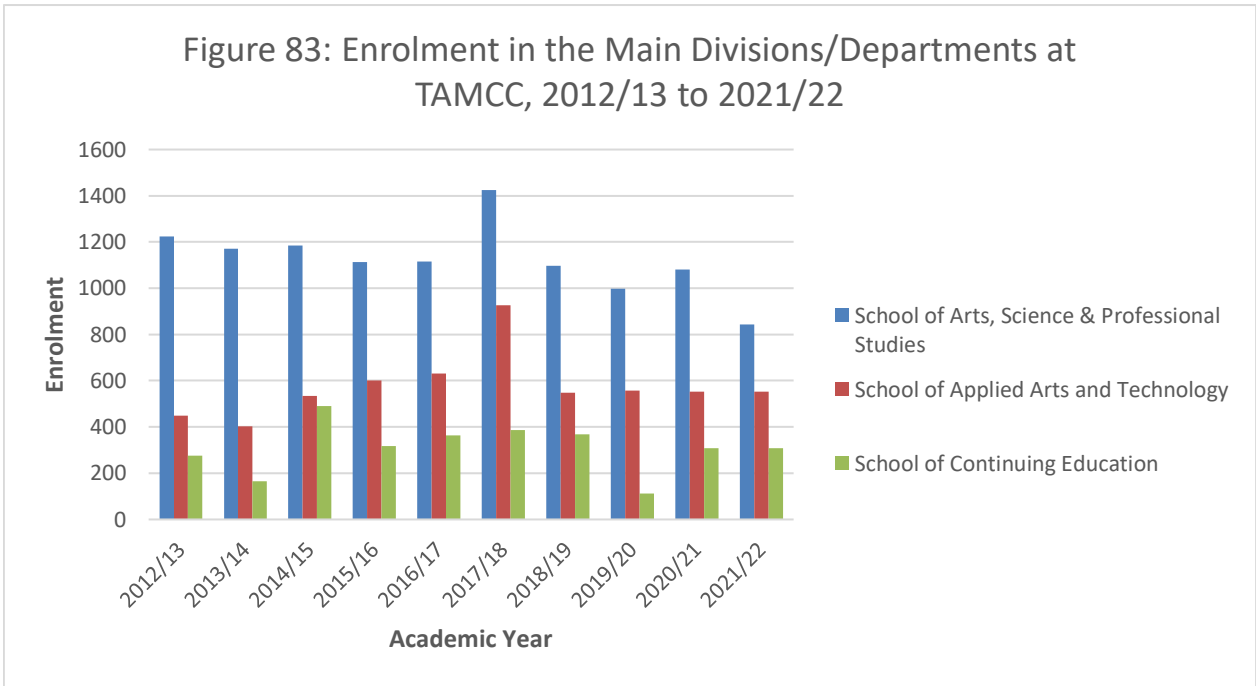

TERTIARY EDUCATION

Tertiary Education Section

The only institution public institution providing tertiary education in Grenada is the T.A. Marryshow Community College. The college has three divisions represent data in the digest: School of Arts, Science and Professional Studies, School of Applied Arts and Technology and School of Continuing Education. A total of 1934 students were enrolled in the three schools in 2020/2021, with the enrolment rate fluctuating over the ten-year period. Government again spent 15.1 million EC dollars on the college in 2022. The data presented in the section highlights the enrollment figures, students' performance, and government spending at the college.

Table 144: Total Enrolment by Main Divisions of Specialisation at T. A. Marryshow Community College, 2012/13 to 2021/22

Year	School of Arts, Science & Professional Studies	School of Applied Arts and Technology	School of Continuing Education	Total

Statistical Digest, 2022

SECTION EIGHT

DEMAND & SUPPLY

Economic Sector Section

This section of the digest provides data on economic indicators relating to or impacting education in Grenada. The Gross Domestic Product and Capital Expenditure are two variables highlighted. The data indicates that highest allocation of budgetary expenditure is allocated on a consistent basis for the education sector.
